### PRINCIPAL ACTIVITIES

The principal activities of the Group during the half-year were debt purchase and collection as well as consumer lending.

### REVIEW OF OPERATIONS

#### OVERVIEW

The directors of the Group report a net profit after tax (NPAT) of \$50.2 million for the first half of the 2022 financial year. The highlights include the following:

- 8 per cent increase in NPAT to \$45.7 million.
- 9 per cent growth in the consumer loan book over the half to \$200 million.
- Record half-year investment driven by a step up in US purchased debt ledger (PDL) investment to \$150 million+ per annum and the Radio Rentals acquisition.
- On track for strong earnings growth across all segments over the full year.

Secondary purchases of the Collection House and Radio Rentals books grew the Australian/New Zealand debt buying segment collections by 6 per cent and NPAT by 5 per cent over the prior corresponding period (PCP). While market volume remains subdued organic purchasing continues to recover, reaching its highest level since the start of the pandemic.

The recently completed Radio Rentals acquisition is expected to sustain collections over the second half in advance of a recovery in organic purchasing. Credit Corp continues to enjoy strong purchasing relationships and is well-positioned as unsecured credit balances recover and charge-off volumes normalise.

In the US, Credit Corp has grown its market share to offset a contraction in PDL supply arising from the pandemic. The Company has secured a full year pipeline of more than \$150 million. The outlook is for a strong recovery in PDL supply over the medium term as US consumers rapidly increase their use of unsecured credit.

Australian/New Zealand consumer lending demand accelerated over the December quarter as key markets emerged from COVID lockdown. Record monthly originations were recorded in December.

High settlement volumes suppressed first-half segment earnings due to up-front expected life-of-loan loss provision expense but produced a \$200 million loan book at the close of the period. Higher interest revenue derived from the increased book will produce an improved second-half NPAT.

Several lending pilots commenced during the period including the Wizpay Buy Now, Pay Later product, the auto loan re-launch and the US instalment loan pilot. The acquisition of the Radio Rentals business assets has accelerated existing plans to enter the sale of goods by instalment market and adds to the suite of lending pilots already underway. All pilots utilise Credit Corp's leading technology platform including fast online decisioning and superior collections.

#### OUTLOOK

The Company is on track to grow earnings in all segments after record first-half investment. Credit Corp remains debt free with undrawn credit lines intact for any one-off opportunities and continued investment growth as market conditions allow.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## Note 2: Operating segments

### A) FINANCIAL REPORTING BY SEGMENTS

An operating segment is a component of an entity that engages in business activities from which it may earn revenue and / or incur expenses. The Group has identified its operating segments based on the internal reports that are reviewed and used by the chief operating decision maker, the Chief Executive Officer (CEO), to make strategic decisions. The Group has three main operating segments: debt ledger purchasing (Australia and New Zealand), debt ledger purchasing (United States) and consumer lending (Australia and New Zealand). All operating segments and results are reviewed regularly by the CEO of the Group, who reviews the operating segments' results on an ongoing basis to assess performance and allocate resources.

In the interval between the end of the half-year and the date of this report, there has not been any item, transaction or event of a material and unusual nature that is likely, in the opinion of the directors of the Group, to significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in future financial years.

### Note 10: Fair value measurement

The fair value of the PDLs is materially the same as the carrying value measured under amortised cost using the credit-adjusted effective interest rate, as the risk-adjusted discount rate used in applying fair value would be similar to the credit-adjusted effective interest rate used in amortised cost measurement.

The carrying amounts of cash and cash equivalents, trade and other receivables, consumer loans and trade and other payables approximate their fair values.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
